Raul Mateo Beneyto
Software Engineer

I am a self-driven person who enjoys learning and creating all kinds of projects. Not only I relish working as a team as it requires communication and dedication, but also I have an open mind to new ideas and appreciate learning from others with more knowledge and experience. In addition, I am a positive person who enjoys maintaining the enthusiasm in a work environment.

EDUCATION

Universitat Politècnica de Catalunya

Bachelor Degree in Informatics Engineering majored in Software Engineering

Sep. 2015 - Dec. 2020

Personal Projects at *raulmabe.dev*

Love trying new technologies, tools, patterns and techniques. I encourage you to check some of my projects in my website, where I show some mock-ups along with an explanation about each one.

always

EXPERIENCE

Full-stack Developer at *iThinkUPC*

As part of a multi-disciplinary web development team, I was responsible for the development and maintenance of a multi-user web application.

- MVC Architecture
- Java, SpringBoot, Lombok, Hibernate
- Scrum and Kanban Board with Jira

Sep. 2019 - Feb. 2020

Front-end Developer at *Jumpets*

As a member of a *start-up,* I developed a website and a multiplatform application.

- MVC Architecture
- Flutter, BLoC and Redux patterns
- PHP, Laravel and Blade

Jun. 2019 - Sep. 2020
